

ADJUSTABLE STEERING SHAFT P/N 405-10100

Our Adjustable Steering Shaft is to be used in line between your Steering Column and Rack and Pinion or Steering Box, allowing for steering shaft compression. It is constructed of 1 1/8" diameter Heavy Duty Steel Tubing and features a Sweet Mfg. 3/4" 20 Spline shaft on both ends. This Adjustable shaft has 7" of travel and features an integrated grease fitting for easy maintenance.

This shaft is not designed to be used as a steering column and is not to accept any kind of steering wheel quick connect.
